Ducted Systems Solutions Mobile App

Easier access to Ducted Systems information

The Johnson Controls Ducted Systems Solutions Mobile App offers instant access to crucial Ducted Systems information in one place. Available on iOS and Android, the Ducted Systems Solutions Mobile App lets users quickly view information on commercial, light commercial and residential products – all for free.

Installing and logging in

Two ways to install

1. Find the Ducted Systems Solutions Mobile App in the App Store (Apple) or Google Play (Android).
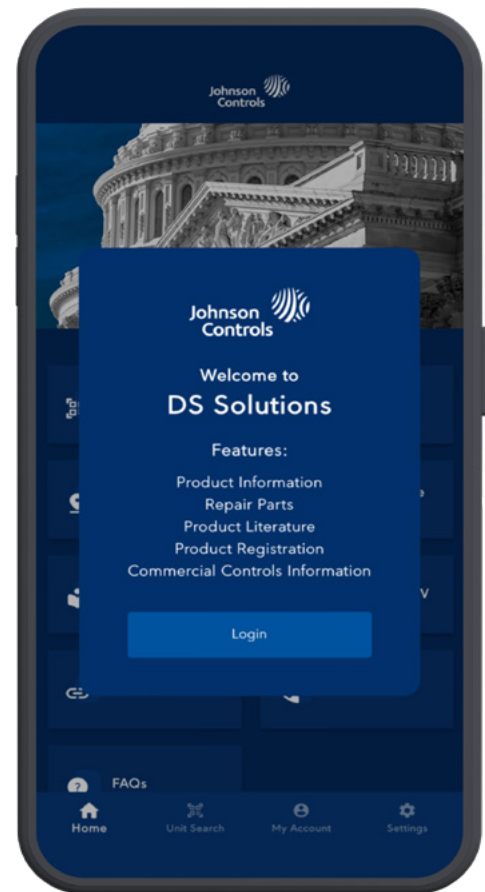

2. Scan the following QR codes:

*Ducted Systems Solutions Mobile App (Apple)*

Ducted Systems Solutions Mobile App (Android)

After downloading the app, log in using your Solution Navigator credentials.

The power behind **your mission**

All the information and support you need, all in one place

The Ducted Systems Solutions Mobile App lets users access product information, unit nomenclature, start-up sections and control information when users scan a unit's QR code or enter the unit's serial number.

Users can also access:

- Tech guides & installation manuals
- Wiring diagrams
- Part finder
- Fault codes
- Training
- Unit-specific literature
  - Performance reports
  - Unit drawings
  - Startups
  - Unit registration

Easier warranty navigation

Finding product registration and warranty claims is easier than ever with the Ducted Systems Solutions Mobile App. All warranty-related information is in the warranty tab, so users spend less time searching and more time growing their business.
